APOLLO WP3: FEASIBILITY STUDY OF EVIDENCE-BASED EFFECTIVE POLICIES IN DIFFERENT SETTINGS

Injury Intervention Area:

ALCOHOL

Instructions: Dear Expert, in the first column of the tables below the main components of 4 effective policies are described. Next columns display six main aspects of the feasibility of implementation of a policy, and more specifically, potential of policy components feasibility in relation to

- availability of financial resources
- availability of human resources with appropriate training
- eventual support on the part of your organization
- acceptability on the part of the public
- availability of necessary technology & materials (equipment etc), and
- possibility to confirm the realization of implementation

Based on your expertise and experience, **please provide a rating on how feasible the implementation of the components of each policy would be in your setting, filling in the respective cells** (e.g. for financial feasibility: 1= minimum feasibility, 5=maximum feasibility). In the last column, you are asked to give your personal opinion on whether the policy can be implemented in a more detailed and concise manner, giving reasons for your answer and explanations where needed.

<p>POLICY: A (continued)</p> <p>Alcohol in Europe: A Public Health Perspective (Institute of Alcohol Studies, 2006)</p>	<p>Please rate Min= 1 2 3 4 5 =Max</p> <p>How feasible is for each specific policy component to be implemented in relation to</p>						<p>Comments</p>
